### We're Moving Office

Dear Madam/Sir,

We are proud to announce that we will be moving to our new office, location Planeetbaan 4 Hoofddorp, as of June 1<sup>st</sup> 2021. The new office, conveniently located close to Hoofddorp railway station and only 5 minutes from Amsterdam Schiphol Airport, provides a modern healthy working environment and home base for our teams of engineers and consultants who are working together to better serve our clients. The move contributes to achieving our sustainability goals and enables future growth. Our new contact details can be found on the next page.

This step into our new office coincides with our 25th anniversary. Founded on the 31st of May 1996, ADSE has developed over the past 25 years into a leading, Netherlands-based, engineering and consultancy firm. We focus on transportation systems and the required infrastructure for today and tomorrow within our key markets Aerospace, Defence, Rail and Maritime/Shipbuilding. Transportation systems which are becoming ever more autonomous, digital and sustainable. In order to contribute to the solving of the technical, organisational and societal challenges faced by public transport in today's modern urbanized society, we are proud to provide the integrated design solutions and the process and organisation improvements needed. With our engineering, certification, consultancy and technical project management expertise, skills, and experience, we make it work!

As you will understand, due to the COVID-19 restrictions, we have to postpone all festivities associated with our new office and our 25th Anniversary. We will however keep you posted and we look forward to show you our new office and invite you to celebrate our 25th Anniversary with us in the near future.

Finally, on behalf of all our colleagues, we would like to express our sincere gratitude to all of our friends, former colleagues, relations, customers and all others who have supported us over the past 25 years. Without this great network it would not have been possible. Thank you all!

Ron van Baaren  
Managing Director

Jarka Bouwmeester  
Operational Director
